Standard Conversion Instructions: Note number in the “Conversion Instruction Notes” column of this Change Summary and Conversion Instruction Guide refers to the standard instructions listed below. Notes are used singly or in combination to cover conversion instructions. However, written specific instructions may be added or substituted when a change requires special clarification.

NOTE	INSTRUCTIONS
1	Code deleted from Officer Classification Structure.
2	Code added to Officer Classification Structure.
3	Direct conversion. Automatically converts directly in Military Personnel Data System (MilPDS). Report on Individual Person (RIP) source document is provided. After all conversion actions are completed, Military Personnel Section (MPS) must update personnel into a valid manpower programming and execution system (MPES) position, when available.
4	No conversion action required.
5	Title change.
6	See “Officer Authorized Prefixes” section of the AF Officer Classification Directory for an explanation of prefix award and deletion criteria.
7	A review and evaluation of an individual’s qualifications are required before designation of this experience set. AFPC assignment manager, force development manager, or Headquarters Air Force (HAF) career field manager will accomplish review to determine designation of appropriate SEI. Using the applicable activity code and the experience set will for SEI.
8	Indirect conversion. Action required as follows: a. Personnel. First AFSC listed under “New AFSC” column is the “preselect AFSC” which will be automatically selected and shown in preconversion listing available to MPSs no earlier than 45 days prior to the conversion date. MPSs, with the help of local functional representatives, will review and evaluate preselect preconversion to determine if duty AFSC (DAFSC) matches manpower position conversion, and if P/2/3 AFSCs are correct according to individual’s qualifications. More than one AFSC associated with this conversion may be awarded if individual qualifies based on background and experience. If review and evaluation finds preselect AFSCs are correct, allow them to stand in MilPDS. If incorrect, MPSs must ensure that indirect conversion actions are appropriately updated post-conversion in MilPDS and source documents provided to the Airman and ARMS for file in his/her ARMS electronic record. For those Airmen not remaining in the preselect AFSC, MPSs must either prepare an AF Form 2096, Classification On-the-Job-Training Action, documenting the correct indirect conversion AFSC information or edit the RIP produced after the conversion. After all conversion actions are completed, MPS must update personnel into a valid MPES position, when available. See the Air Force Specialty Code (AFSC) Personnel Services Delivery (PSD) Guide. b. Manpower. With the help of the functional manager, determine unit manpower document (UMD) changes required to effect conversion and implement those changes in the MPES.
9	MilPDS table changes required.
10	MPES table changes required.
